

Engineering Summer Placement Opportunities

Rendel is a specialist civil and structural engineering consultancy, with a proud legacy of prestigious and technically-challenging projects, such as the Thames Barrier, Sheikh Zayed Bridge and the New Europe Bridge.

Based in London and operating internationally our team works on major infrastructure schemes. Current projects include Hinkley Power Station, High Speed Rail, Eurotunnel UK Terminal, Padma Bridge in Bangladesh and Al Zour Refinery in Kuwait.

We are seeking 3rd year engineering students who have an interest in pursuing a career in civil / structural engineering for summer placements.

Further details about Rendel can be found on our website. Applicants should forward their CV to recruitment@rendel-ltd.com.

Summer placements on offer range from 6 to 12 weeks. Applications should include details of your availability over the summer.

Rendel is an equal opportunities employer.
